### ICO · NFT'S · AIRDROPS · GRILLING™ "STAKING"

Mission #3 is the greasy launch of the \$GIF (Glizzy Wif Hat) memecoin within ERGO community, with an ultimate objective of continued fundraising for Ergo adoption initiatives. This experimental token will follow traditional memecoin token launches while maintaining a position of integrity and responsibility to the Ergo Community. In this document we will outline the tokenomics and road-map for \$GIF.

With that being said, we are venturing into memecoin land, a volatile and historically PvP (Player vs. Player) focused environment. Participate at your own risk and only donate what you feel most comfortable with. This is for our entertainment and enjoyment!
